PROFESSIONAL SUMMARY

Web and Software Developer with hands-on experience in PHP, MySQL, JavaScript, and a strong interest in developing expertise in C#. During my internship, I built and deployed systems that made office work 83% faster by cutting out manual errors. I am looking for a junior developer role where I can help a team build reliable and useful software.

TECHNICAL SKILLS

- Languages: Java, PHP, Python, C# (beginner, currently learning)
- Web: HTML, CSS, JavaScript
- Database: MySQL, Firebase
- Tools: Git, XAMPP, Visual Studio Code, Cursor

SOFT SKILLS

- Able to find and fix technical issues
- Communicates clearly
- Can adjust to changes in tasks or priorities
- Likes to learn how things work

PROJECTS:

STIER COPLAN - Event Reservation System

- Created a reservation system in Java and Firebase to handle student event bookings.
- Prevented 30+ double bookings during actual campus reservations

Clinic Management System

- Replaced paper records for 200+ students with a PHP/MySQL system, cutting search time from minutes to seconds.
- GitHub: https://github.com/AlfonsoDelaLuna/Clinic_Management_System

Library & Guidance Management System

- Built two PHP/MySQL systems used by 1–2 staff to manage 300+ student records for book loans and guidance appointments.
- Library: https://github.com/AlfonsoDelaLuna/Library_Management_System
- Guidance: https://github.com/AlfonsoDelaLuna/Guidance_System

Drugstore Inventory System (Side Project)

- Tracks 100+ medicine items with alerts for low stock and expiration, made for use by one storekeeper or clinic staff.
- Github: https://github.com/AlfonsoDelaLuna/Drugstore_Inventory

INTERNSHIP EXPERIENCE

MIS/IT Department - Internship

STI College Caloocan | February 2025 - April 2025

- Built and deployed record systems for the clinic, library, and guidance office using PHP/MySQL, improving efficiency by 83% and cutting manual tracking errors.
- Ran a cybersecurity orientation for over 30 senior high school interns, helping them understand common digital threats and how to avoid them.
- Fixed network and hardware issues, resolving 73% of cases and reducing system downtime for students and staff.
- Worked with teams on full-stack projects and IT support, improving technical knowledge, communication, and ability to solve real-world problems.

EDUCATION

Bachelor of Science in Information Technology

STI College Caloocan | 2021 - 2025
